Matched
Packaging

Clear window increases visibility of specialty breads
Package allows bread to breathe ensuring a crispy crust

Printed bags identify popular bread types
Garlic bags lined with natural unbleached paper

Grease resistant bags are perfect for pastries and cookies

Dubl-Wax® bags keep baked goods fresh

artisan bakery

A matching design for
all your bakery packaging needs

- ☉ Fresh eye-catching appeal drives impulse purchases
- ☉ Right-size packages eliminate waste and reduce costs
- ☉ Made with natural unbleached paper to enhance sustainability

Why EcoCraft® Products?

Bagcraft Papercon converts paper into foodservice packaging from an abundant renewable resource; trees. Natural kraft paper was chosen for the EcoCraft® line. Foodservice packaging made from natural kraft paper is more than just a sustainable look or trend. Natural kraft paper offers a significant benefit toward a more sustainable environment.

Advantages of producing natural unbleached paper versus bleached paper*

- 21% Less wood pulp used
- 46% Less waste water released
- 10% Less greenhouse gases produced
- 16% Less solid waste produced

We save 6089 trees, remove 15 full swimming pools of waste water, and 13 garbage trucks of solid waste for every 1000 tons of natural kraft paper produced vs. bleached paper of the same basis weight.*
