

Proform™

PARK AVENUE VINYL

Specification Sheet

Vinyl Border

Application -	Indoor and outdoor.
Construction -	"Never-Fray" needlepunch construction. Includes 1/4" vinyl border.
Texture -	Hobnail non-directional pattern.
Face Fiber -	100% Solution dyed UV stabilized polypropylene for maximum stain and fade resistance.
Face Weight -	37 oz/sq yd is 50% heavier than the average rental runner resulting in more water retention, durability, crush resistance, and aggressive soil removal.
Total Weight -	1.1 lb per square foot.
Total Height -	(.4) inches (variable).
Backing -	Vinyl. (Optional Velcro strips available for use on carpet.)
Sizing -	3', 4' or 6' wide x up to 60' long. (Can be cut to narrower widths.)
Flammability -	Passed (DOC-FF-1-70) Pill test.
Water Retention -	(.57) gallons per square yard. Outperforms matting whose claim to fame is water retention.
3-Year Warranty -	100% in first year, 50% in second year, 25% in third year.
Installation -	Easy to self-install with a mat knife. Optional on site installation by a PROFORM certified master installer is available.
Storage Cores -	Optional Heavy Duty fiber storage cores insure that matting is ready to lay flat without curling. (Always store carpet side out.)
Edging -	Vinyl Border: 1/4in extension of the backing beyond the base fiber.
Cleaning -	Regular vacuuming, carpet extraction or bonnet cleaning as needed.

LEED: Possible LEED-NC credits: MR Credit 4 (1-2 points), IEQ Credit 4.1 (1 point)
