

# Think Your Reopening Plan is Complete?

*Think again!*

While stopping “contact spread” is of chief concern, an **airborne prevention plan** must also be developed.

## Indoor Air Quality Facts

1. Americans, on average, spend approximately 90 percent of their time indoors, where the concentrations of some pollutants are often 2 to 5 times higher than typical outdoor concentrations.
2. People who are often most susceptible to the adverse effects of pollution due to asthma and allergies tend to spend even more time indoors.
3. Indoor concentrations of some pollutants have increased in recent decades due to such factors as energy-efficient building construction and increased use of synthetic building materials, furnishings, personal care products, pesticides, and household cleaners.

# A Higher Standard of Air Purification

HEPA H13 Multi-Level Filtration

Lifetime Warranty

Removes 99.9% of Particles Down to 0.1 Microns

# What Makes Medify Air Purifiers so Special?

Every unit comes fully equipped with HEPA H13 filters (rated higher than True HEPA), which remove 99.9% of particles down to 0.1 microns.

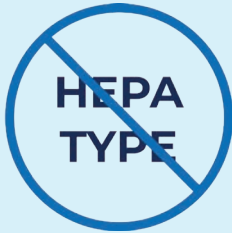

Our growing line of models allows individuals, families, and businesses alike to clean the air in any sized room, home, office, classroom, and more.

We believe everyone deserves to breathe clean indoor air, so we are dedicated to providing the highest standard of quality and technology at the most approachable pricing, including quantity and B2B discounts.

# The Medify Difference

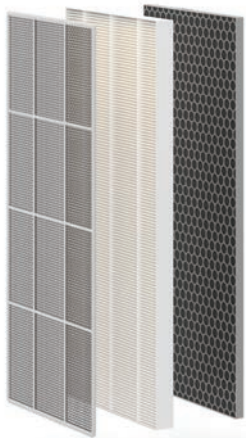

HEPA H13 Filters Capture Particles SMALLER than Airborne COVID-19

If you have seen the words “HEPA Type,” that really means “NOT HEPA.” This is the tragedy of false advertising that many major brands use to confuse and sell the public less effective and cheaper quality air purifiers in the name of profit.

## Medify Air H13 True HEPA Filters

Medify Air Purifiers use H13 True HEPA filter with three levels of filtration to catch and remove allergens, pet dander, and more.

Captures up to **99.9%** of particles

 Maintain your lifetime warranty by using genuine Medify replacement filters

### AIR PARTICLES

# Why Choose Medify Air?

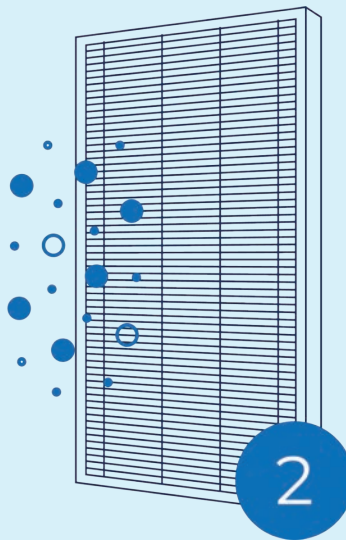

The challenge is to find the brand of air purifier with the best quality filter and most adequate airflow to service the spaces needing treatment.

Medify's superior filtration removes 99.9% of Airborne COVID-19 Particles and even smaller down to 0.1 microns

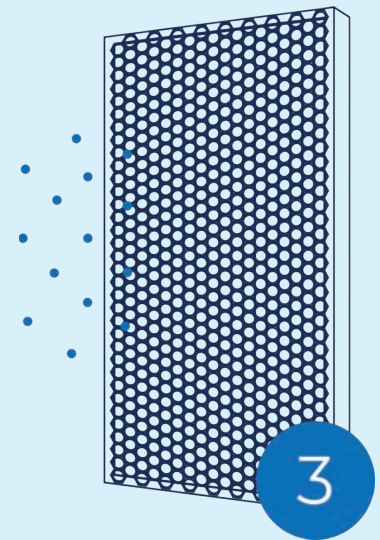

## 1. PRE-FILTER

(Removes dust, hair, large particles)

## 2. HEPA H13 FILTER

(Removes dust, pollen, smoke, germs, pet dander)

## 3. CARBON FILTER

(Odor removal, VOC's formaldehyde)

To effectively remove airborne particulate matter...HEPA filters with a rating of at least H13 or above is needed.

- WHO (WORLD HEALTH ORGANIZATION)

Ideal for reception, lobbies, conference rooms, common areas, and individual offices.

I bought this Medify... H13, air purifier during the 2020 pandemic... This thing has really made a difference.

Over 2000 five star reviews on Amazon

Rated best air purifier for large homes

#1 air purifier in the Market. 9.9 out of 10

# True HEPA H13 Air Purifiers

People usually take indoor air quality for granted, assuming with a false sense of security that being indoors means being safe from pollutants. However, according to the Environmental Protection Agency (EPA), indoor air quality is the fourth most significant environmental threat to our health.

With 90 percent of our time spent indoors, indoor air quality is certainly no laughing matter.

 Only H13 or better removes 99.9% of particles down to 0.1 microns

## MA-112

- Dual air intake
- Cleans an area of 2500 sq. ft. every 30 minutes
- Clean Air Delivery Rate (CADR) of 950
- 3,000 hours of filter life
- 4-speed selection, timer & sleep mode
- Max noise is < 70dB

## MA-50

- UV light disinfection
- Cleans an area of 1100 sq. ft. every 30 minutes
- Clean Air Delivery Rate (CADR) of 500
- 3,000 hours of filter life with filter indicator
- 4-speed selection, timer & sleep mode
- Max noise is < 56dB

## MA-40

- Cleans an area of 840 sq. ft. every 30 minutes
- Clean Air Delivery Rate (CADR) of 330
- 3,000 hours of filter life
- 4-speed selection, timer & dimmer
- Max noise is < 60dB

## MA-35

- On/off ionizer function
- Cleans an area of 640 sq. ft. every 30 minutes
- Clean Air Delivery Rate (CADR) of 290
- 2,500 hours of filter life
- Touch screen operation panel
- Max noise is < 66dB
- Wall mounted
