

Clorox Commercial Solutions®

Clorox® 4 in One Disinfectant & Sanitizer

Cleaning for a Healthy Environment Just Became Easier

Kills Bacteria on Hard *AND* Soft Surfaces

Not only is Clorox® 4 in One Disinfectant & Sanitizer EPA-registered to kill bacteria, viruses and fungi on hard, nonporous surfaces, but it's also EPA-registered to kill illness-causing bacteria on soft surfaces in as little as 30 seconds!

Reduces Allergens*

Clorox® 4 in One Disinfectant & Sanitizer is proven effective at reducing key common allergens.* While these allergens can cause all-too-common allergies, they are also triggers for asthma — a serious health and economic concern according to the CDC.¹

Sanitizes the Air and Leaves a Fresh Citrus Scent

Clorox® 4 in One Disinfectant & Sanitizer is EPA-registered to kill odor-causing bacteria in the air. While other products may just cover up odors, Clorox® 4 in One Disinfectant & Sanitizer kills the bacteria that cause them and leaves a pleasant citrus scent.

Fast and Efficient with No Pre-cleaning Required

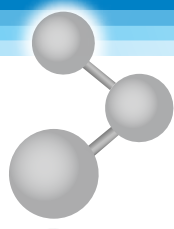

Unlike many aerosols, Clorox® 4 in One Disinfectant & Sanitizer requires no pre-cleaning for either disinfection or sanitization. With no additional step in your cleaning routine coupled with so many uses in one product, you can accomplish so much more with less in your cleaning routine.

THE COMPLETE CLEAN

DISINFECTING CLEANING

Science of Clean

Hard Surface Disinfection

Routinely disinfecting high-touch hard surfaces is critically important to maintaining a healthy environment. In fact, the CDC consistently cites routine cleaning and disinfection of hard surfaces as one of the key actions in preventing the spread of germs that cause illnesses like the flu.¹

That's why it's important that your go-to aerosol be EPA-registered to kill germs on hard surfaces. Clorox® 4 in One Disinfectant & Sanitizer is EPA-registered to kill 24 key pathogens, including the germs of highest concern such as viruses that cause cold and flu, bacteria associated with food poisoning — *E. coli* and *Salmonella* — as well as MRSA, HIV, Herpes and Athlete's Foot Fungus.

Soft Surface Sanitization

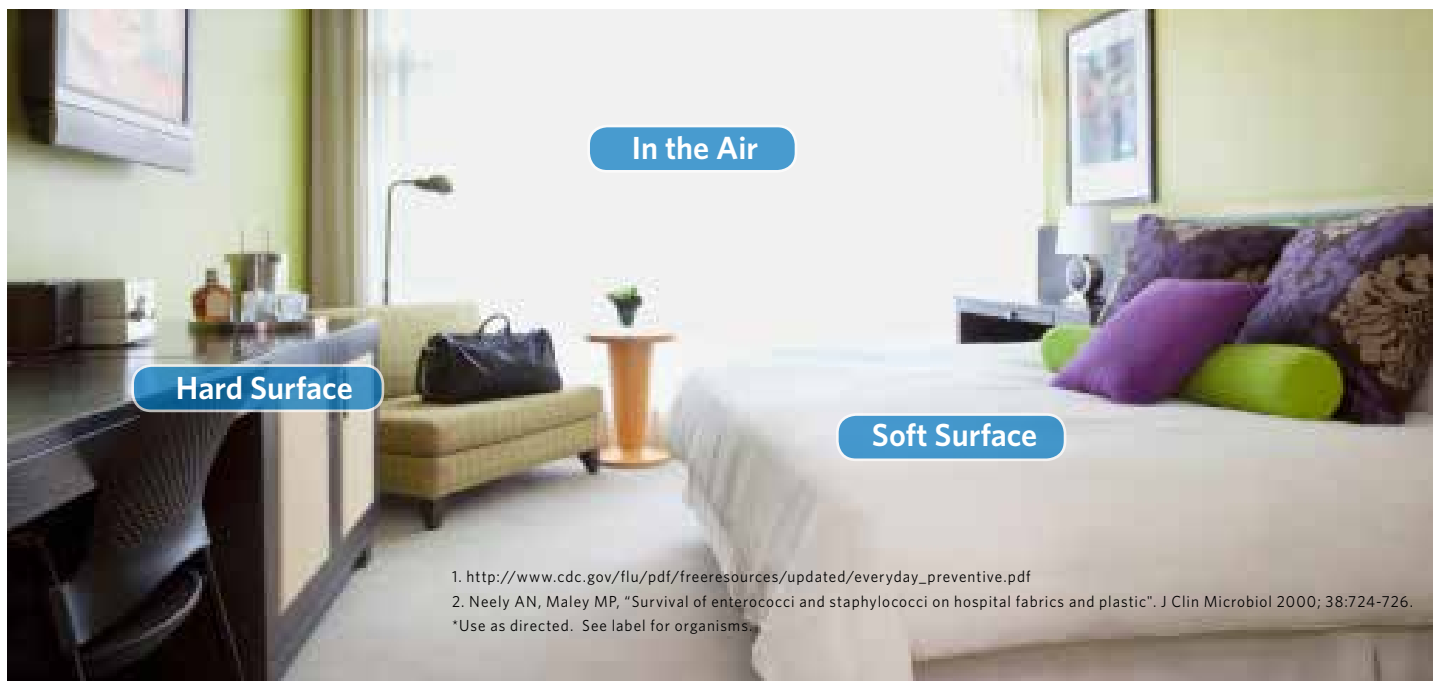

Soft surface cleaning and sanitization is also critical given that soft surfaces, such as curtains, mattresses, cushions and rugs, can become contaminated with pathogens and have been linked to the spread of illness. Don't be fooled by products that merely freshen fabrics — Clorox® 4 in One Disinfectant & Sanitizer is EPA-registered to sanitize soft surfaces in just 30 seconds.*

Did You Know?

Illness-causing bacteria, including antibiotic-resistant strains like MRSA and VRE can survive on soft surfaces from 20 to 80 days or more.²

Air Sanitization

Clorox® 4 in One Disinfectant & Sanitizer is EPA-registered to kill odor-causing bacteria in the air. If your current aerosol is just masking odors, you're not getting at the root of the odor problem. Clorox® 4 in One Disinfectant & Sanitizer eliminates odors at their source and leaves a pleasant citrus scent.

Economics of Clean

Fast and Efficient with No Precleaning Required

Unlike many aerosols, Clorox® 4 in One Disinfectant & Sanitizer requires no precleaning for either disinfection or sanitization. With no additional step in your cleaning routine coupled with so many uses in one product, you can accomplish so much more with less in your cleaning routine.

Reducing Allergens* Can Improve Your Bottom Line

When cleaning for a healthy environment, don't overlook allergens*. It's not just that they can cause annoying allergies each year, but they are also a trigger for asthma. Asthma is one of the leading causes of school absenteeism and results in over 14 million missed days of work in the U.S.² Clorox® 4 in One Disinfectant & Sanitizer is proven effective at reducing these sources of indoor allergens associated with sensitization in the U.S.²

Efficiency in Delivering More Spray Time

Clorox® 4 in One Disinfectant & Sanitizer offers longer spray time than a leading aerosol in a larger can! In fact, it delivers 32% more sprays per can.

	Sprays per Can	Results
Clorox® 4 in One, 14 oz	550	The most spray time
Professional Lysol® Brand ^{III} Disinfectant Spray, 19 oz	375	32% less spray time

Source: Lab testing determined the number of one-second sprays per can.

Save Money and Do More with Less

- ✓ Hard Surface Disinfectant
- ✓ Soft Surface Sanitizer
- ✓ Air Sanitizer
- ✓ Allergen Reducer*
- ✓ Deodorizer (*fresh citrus scent*)

* cockroach matter, dustmite matter, dog and cat dander

The Product

Clorox Commercial Solutions®

Clorox® 4 in One Disinfectant & Sanitizer

Case UPC: 31043 12/14 oz.

Great for use in:

Long-Term Care

Hotels/Hospitality

Offices/Lobbies

Schools and Daycare

Athletic Facilities

Use Clorox® 4 in One Disinfectant & Sanitizer for:

Disinfecting high-touch hard surfaces such as:

- Garbage cans
- Light switches
- Telephones
- Elevator buttons
- Remote Controls
- Doorknobs or pulls
- Weights and sports equipment

Sanitizing Soft Surfaces such as:

- Curtains
- Chairs
- Couches
- Mattresses
- Bedspreads
- Mats
- Rugs
- Sports equipment, balls, tubing

Moreover, it prevents the growth of mold and mildew on soft surfaces as well!

Use as directed.
