# Indoor Window Cleaning with Unger

With over 50 years experience in outdoor window cleaning expertise, Unger has been working with end users to understand the challenges they face when cleaning windows indoors.

## ► Safety & Cost Savings

Both the Stingray and SpeedClean kits allow the user to extend their reach for high access cleaning.

Workers using unsafe ladders spend nearly a third of their work day going up and down.

Lift systems, either as rentals or purchases are very expensive.

## ► Ergonomics & Health

Both the Stingray and SpeedClean kits are lightweight and easy to use. This puts less strain on users resulting in faster and more efficient cleaning.
