OUR MISSION

Be Green Packaging (BGP) designs, manufactures and distributes the only Non-GMO Project Verified, tree-free and compostable packaging for the food and consumer packaging industries.

WHAT WE DO

Be Green Packaging designs, manufactures, and distributes **Cradle-to-Cradle certified** tree free, compostable packaging for the food and consumer packaging industries.

VISION

We envision a world where the circular economy and **Cradle-to-Cradle** are not just slogans but reality. A world of abundance, where products manufactured are free of chemicals, where the water leaving our factories is cleaner than the water coming into it. Where our children and grandchildren live, work and play in a world of unlimited opportunities. We envision a world where all buildings and factories operate 100 % waste free: where all work forces are paid fair wages and provided with healthcare benefits.

We realize our vision and drive innovation by integrating the **Cradle-to-Cradle** mentality into every- thing we do. We believe that companies have a responsibility to “not making things less bad” but “making things more good”.

CORE VALUES

Our core values help us to steer our business decisions and our daily priorities. **Our Core Values are:**

✓ **INNOVATION:** Science and Technology – Drive innovation through green chemistry science and technology.

✓ **QUALITY:** Manufacture the highest quality products to very exacting specifications down to the molecules of inputs.

✓ **SOCIAL FAIRNESS/COMMUNITY:** Focus on both local and global communities where we do business. Pay living wages and provide health benefits to all full time employees.

✓ **CUSTOMER'S DELIGHT:** Offer the most transparent and responsive customer service customer care packaging solutions on the planet.

FEATURES, BENEFITS & PRODUCT SAFETY:

Our food service products are Cradle to **Cradle Certified™** - we have committed to the full-life cycle of our products. Our manufacturing and feed stock utilizes **tree-free, annually renewable plant fibers** and agricultural secondaries. We follow Cradle to Cradle protocols and 21st-century manufacturing models: material utilization, material reutilization, renewable energy, water conservation, and social justice. We support the creation of healthy, fertile soil through the compostability of our fiber products and our training programs.

Our third party certifications include:

- ✓ BPI certified compostable
- ✓ Certified recyclable by Western Michigan University
- ✓ Non-GMO Project Verified
- ✓ USDA Bio Preferred

Our manufacturing facility audits include:

- ✓ AIB
- ✓ Intertek

Benefits of our Food Service Products:

- ✓ Freezer, microwave, and oven safe (lab certified)
- ✓ Grease and moisture barrier protection
- ✓ Optional PET or PLA linings available
- ✓ Custom coloring of fiber
- ✓ Gluten allergen free and Non GMO verified
- ✓ Compostable and recyclable fiber
- ✓ Tree free!
